3. Purposes of Processing and Legal Basis

We process your personal data for the purpose of organising, conducting and following up the event for which you registered or in which you participate. This includes, in particular, managing registrations, communicating with you in connection with the event, creating participant lists as well as organisational planning and on-site execution. The legal basis for this processing is Art. 6 para. 1 lit. b GDPR (performance of a contract or pre-contractual measures).

In addition, photo and video recordings may be taken during the event in which you may be identifiable. These recordings serve the documentation and public relations work of the organiser, for example through publication on the website, in social networks or print media. The legal basis for this is our legitimate interest pursuant to Art. 6 para. 1 lit. f GDPR in conjunction with § 23 KunstUrhG.

If you do not wish for recordings of you to be published, you may inform the organiser at the beginning of the event.

- Photo and video recordings produced during the event in which you may be identifiable

Only persons who register for an event, participate in it or are involved in its organisation are affected.

5. Recipients of Personal Data

Your personal data will generally not be transferred to third parties. A transfer only takes place insofar as it is necessary for the execution of the event or a legal obligation requires it. This may include service providers who support us in organising and executing the event, such as event agencies, IT or communication service providers, as well as photographers. These service providers are contractually bound to confidentiality and compliance with applicable data protection regulations.

6. Duration of Storage

We store your personal data only as long as necessary for the organisation, execution and follow-up of the event or as long as legal retention periods apply. After completion of the event and expiry of any applicable periods, your data will be deleted unless further consent exists or other legal reasons require longer storage. Photo and video recordings are retained as long as they are used for documentation and public relations purposes and unless you object.
