

Consent to the Storage and Further Processing of Applicant Data for Future Job Openings

1. Purpose of Storage

If my application is unsuccessful, I consent to

Sculpture Network e.V., Osloer Straße 102, 13359 Berlin / Germany (Employer) storing my personal data, which I submitted as part of my application, including all attached documents, on the basis of my consent pursuant to Art. 6(1)(a) GDPR for up to two years after the conclusion of the specific application process. The Employer may use this data solely to contact me about other suitable job openings within the company/association and, where appropriate, to continue the application process. Before the storage period expires, the Employer will contact me to obtain renewed consent for further storage, if applicable.

2. Special Categories of Personal Data

If I have voluntarily submitted special categories of personal data within the meaning of Art. 9(1) GDPR as part of my application (e.g. photos from which ethnic origin can be inferred, information on a severe disability, or similar information), my consent also covers the processing of this data. The Employer evaluates applications solely on the basis of qualifications and therefore generally asks that such information be provided only where it is necessary for the application process.

3. Voluntary Nature of Consent

Giving this consent is voluntary and has no influence on my chances in the current application process. I may refuse consent without giving reasons and without having to fear any disadvantages as a result.

4. Withdrawal and Other Data Subject Rights

I may withdraw my consent at any time, without giving reasons, with effect for the future. If I withdraw my consent, my personal data will be deleted without undue delay after the application process has concluded, unless statutory retention obligations prevent this. In addition, under the provisions of the General Data Protection Regulation (GDPR), I have the right to request information at any time about the data stored about me. I also have the right to have inaccurate data rectified and to request the erasure of my personal data, unless statutory grounds prevent this. I may also request the restriction of the processing of my data and demand the transfer of my data in a structured, commonly used, and machine-readable format. Furthermore, I have the right to lodge a complaint with the competent data protection supervisory authority if I believe that the processing of my personal data violates data protection regulations. Statutory permissions for certain data processing, for example under tax law when reimbursing application costs, remain unaffected by a withdrawal, as they are not based on this consent.
